NOTICE TO PROSPECTIVE BIDDERS

CONTRACT NO.: DL00172
WBS ELEMENT(s): 17BP.12.R.27
TIP NO.: NONE
FEDERAL AID NO.: STATE FUNDED
COUNTY(s): IREDELL
LOCATION: SR 1812 (TUTTERROW RD) & BUCK SHOALS CREEK
DESCRIPTION: REPLACING BRIDGE # 290 WITH A CONCRETE BOX CULVERT

**SUBJECT: INFORMATION REGARDING THE BID ITEM FOR TEMPORARY
SHORING (SF).**

To Whom it May Concern,

The following question has been submitted for the above referenced project:

- Q:** A line item for Temporary Shoring (Item 6, 150 SF) exists in the proposal that is not shown on the plans. Where is the shoring to be located and what are the parameters of the temporary shoring?
- A:** The item was included in case a small amount of shoring was needed to construct the box culvert and wing wall near DRV1. Although it is possible that the integrity of the driveway and access around the driveway can be maintained without any type of shoring, the Department felt that a small amount of shoring may be needed depending on the Contractor's equipment type and site conditions. If shoring is needed, it is anticipated to be a minor amount and in such case will be paid for by the square foot thereby compensating the Contractor regardless of specific size.

For questions regarding contract bid items or contract provisions please contact Steve Rackley at the Division 12 Office in Shelby at 980-552-4216.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark E. Stafford". The signature is written in a cursive, slightly slanted style.

Mr. Mark Stafford, PE

Division12 Engineer
